Technical Skills: HTML5, CSS3, Javascript, JQuery, Bootstrap & Responsive Design, Firebase, Cookies & Local Storage, Node Js, MySQL, MongoDB, Express, GitHub & Heroku, MERN Stack, Handlebars JS, & React Js

Web Developer Summary

- Deployed static and dynamic websites to the cloud for a project in development
- Wrote SQL to perform Create, Read, Update and Delete commands to build Bamazon
- Created a full stack Single Page Application with AJAX communication for the GifTastic project
- Apply “social coding” accepted and best practices (including source control, issue tracking, functional feedback) throughout the Right Side of the Bed project
- Work independently or in a group on complex projects throughout the entire development lifecycle, specifically Right Side of the Bed
- Create RESTful APIs utilizing JSON as a data format as with the LIRI application

TECHNICAL EXAMPLES OF WORK

[The Right Side of the Bed](#) | UI Development | [GH](#)

Technologies Used: HTML5, CSS3, jQuery, local storage, APIs, user validation

- This group project is an application to start your day out on a positive note by providing music, forecasting the day's weather, calculating commute time, showing the top news headline of the day, and motivating users to get up and exercise. I designed and implemented the to-do list, the news headline button, user validation, and the radio station.

[GifTastic](#) | Front-End Development | [GH](#)

Technologies Included: HTML5, CSS3, jQuery, API

- The application allows users to input their favorite canine friend for a list of related hilarious and sweet gifs.

LIRI Bot | Node Development | [GH](#)

Technologies Included: Node.js, moment, axios and request, and JavaScript

- LIRI will search Spotify for songs, Bands in Town for concerts, and OMDB for movies. LIRI is a command line node app that takes in parameters and gives you back data.

PREVIOUS WORK EXPERIENCE

Billy Mills Middle School | *English Teacher*, 2017 - 2018 | Lawrence, Kansas

- Developed students' academic and interpersonal skills through academic courses of study
- Developed professionally through a course designed to meet the needs of culturally and linguistically diverse students

Hampton High School | *French Teacher*, 2016 - 2017 | Hampton, Virginia

- Worked with 7 sections of students that included those enrolled in the International Baccalaureate (IB) program
- Prepared seniors for the four-part IB exams and administering oral section of the test

Prairie Star Middle School } *French Teacher*, 2014 - 2016 | Leawood, Kansas

- Explained French language instructions to middle school students, developed and assessed instructional strategies focused on Kansas academic standards, and created interactive French classroom sessions.
- Assistant directed the spring musical of over a hundred students, specifically helping with costume design and backstage support/organization

EDUCATION

The University of Kansas Edwards, Overland Park, Kansas | *Full Stack Web Development Bootcamp*

Washburn University, Bachelor of Arts in French and Teaching Licensure | Topeka, Kansas
